Role Summary: Physics Laboratory Technician

The Physics Laboratory Technician plays a key role in supporting the effective delivery of practical Physics across the school, including KS3, GCSE and A-Level. Working closely with teaching staff, the technician ensures that practical lessons and demonstrations are prepared efficiently and carried out safely.

Responsibilities include the preparation, setting up and clearing away of equipment for lessons, assessments and examinations; the routine checking, maintenance and safe storage of apparatus and materials; and supporting health and safety through adherence to school policies and CLEAPSS guidance. The technician assists with risk assessments, maintains accurate inventories, and supports the effective organisation of the laboratory. The role also involves managing stock levels, ordering equipment and consumables, and supporting departmental activities such as enrichment events, clubs and open events. The technician contributes to a safe, well-resourced and well-organised learning environment that enables high-quality practical work and supports students' understanding and enjoyment of Physics.

The role requires strong organisational skills, a sound understanding of Physics practical work, a proactive approach to health and safety, and the ability to work both independently and as part of a collaborative departmental team.
